ATTEMPT TO BLOW UP A PALACE. Bomb Exploded in Minister Porter's Residence lu Rome.

ROME, March 18.-At 6:30 o'clock Friday morning a bomb exploded in the Ancini Mattei palaco, the residence of United States Minister Porter. Tho explosion of the bomb did but slight damage to the building, and nobody was injured.

The building is occupied by no other families besides that of United States Minister Porter.

As a similar ontrage was perpetrated in the same building in 1892, and as Mr. Porter only engaged the building for occupation in the closing days of that year, it is believed that the fact of the palace being inhabited by the American had nothing to do with the outrage, but the motivo for causing the explosion was to gratify a desire for vengeance upon the proprietor of the palace, irrespective of whether the resitime of the first explosion and there is no reason to take a different view now.

The United States minister called at the foreign office during the afternoon and told Signor Brin, minister of foreign affairs, he was convinced that tho explosion was not intended to injuro him or to affront the United States government. He expressed his regret that such an embarrassing incident had occurred and assured Signor Brin of the sympathy of the United States government and its willingness to let the affair pass unnoticed. Signor Brin thanked him for his visit and two hours later returned the call to inform him that the Italian government felt the deepest regret on account of the inconvenienco caused to him and his family by the explosion.

THE ANN ARBOR STRIKE.

It is Still On and Hoth Sides are Anxions for a Setllement.

Toledo, March 18.—Goneral Manager Ashley of the Ann Arbor has issued orders to have froight cars offered to the Lako Shore and the Pennsylvania railroads to see what attitude the officials and brotherhood would assumo.

Chief Arthur of the brotherhood talks as if the men on all the local connecting lines would stand by the strikers. He says he has not ordered a general strike, but that the men will act without any explicit orders. The cars had not been offered so far.

Grand Chiefs Arthur and Sargent of the Engineers' and Firenien's Brotherhood have furnished a lengthy statement giving the reasons for refusing to accept the terms of settlement of the Ann Arbor strike as agreed upon bo-tween President Ashley and William Kirkby, stato railroad commissioner.

The principal objection is a clause in the agreement, inserted by Kirkby, that the strikers must make application in writing fer their old places; applica-tions to be considered in the order re-

An amendment that the men be reinstated without prejudice was rejected by President Ashley. Nothing was left but to continue to strike.

Both Mr. Arthur and Mr. Sargent say they are still willing to leave the question in dispute to any three managers in Toledo or elsewhere, and abido

by the decision.

Vice President Henry Ashley and the counsel for the boycotted Ann Arbor road went to Detroit yesterday and were granted an order by Judge Taft of the United States supreme court restraining Chiefs Arthur and Sargent from issuing orders for a general strike or boy-

THE NEW IRON PIPE COMBINE Will Comprise Ten of the Largest Foun dries-Capital \$20,000,000.

CINCINNATI, March 18,-Those firms composing the new iron pipe combine are holding a meeting here. It is a big thing and is proving unwieldy. It is said that the combination will control all the cheap pigiren of the south and west and that the eastern foundries, which dopend on the south for this class of iron, will have to close up. It is a fight between the eastern and western and southern concerns. It is expected that the price of iron pipe will be increased from \$4 to \$6 a ton immediately upon the consummation of the combine.

DULUTH AS A WHEAT CENTER.

The Young City Has Surpassed Chicago In Thal Respect and Promises to Steadily Increase the Lead-Navigation on Lake Superlar May Nat Open Until Well

CLEVELAND, March 18.—Two factors contribute to make the outlook for next season's business on the lakes exceptionally good-the world's fair and the long and severe winter just closing.

At no time in five years have the stocks of coal at all the upper lake ports been as low as now, and from the opening of the season heavy shipments are expected from all Lake Erie points. Indeed, if the spring should be late and Lake Superior navigation not open until well into May, there is some reason

to fear a coal famine.

Advices from West Superior, Wis., show that the stock there is all sold and going forward to consumers rapidly. The St. Paul and Western docks there, which received 200,000 tons of coal last season, have less than 4,000 left. The Lehigh has the most of 60,000 tons of soft and 8.000 tons of hard, but every ton of it is sold. The Duluth situation is still more critical, and railway officials are uneasy over the scarcity which, in event of protracted cold, threatens to cripple traffic.

Demand for coal tonnage will be very brisk from the opening of navigation. The docks hero, at Ashtabula, Sandusky, Bnffalo and other points, are pro-paring for largo shiptachts, and it is not unlikely that 30 per cent more coal will go up the lakes this year than last. Of this the Ohio coal roads will get their full share, and may be expected to pros-

per accordingly.

The package freight situation can not be outlined so distinctly in figures, but the glut of passenger traffic at Chicago is certain to handicap the freight de-partment of all roads heavily and result in a much larger proportion of the basi-

ness going by boat.

One well-informed vessel man remarked yesterday that the Chicago rail-ways would do well if they handled half their usual through freight, and pre-dicted that every vessel arranged for carrying packago freight would be found in the Chicago and Buffalo trado before the middle of June.

seems probable, is rather dull. Over 38,500,000 bushels of wheat and 8,500 000 of corn are in the elevators or stored in the holds of vessels waiting for the

opening of navigation. Duluth, which in the reports also includes West Superior, Wis., for the first time on record holds more wheat than Chicago, having 16,000,000 bushels as yesterday. The federal court adjourned, compared with the Windy City's 14,500,-000. This really marks the departure of Chicago's greatness as a wheat center. The head of Lake Superior has vanquished the head of Lake Michiga ... and the development of the great wheat belt in the northwest will steadily increase tho lead of Duluth over her onetime patronizer. In corn, however, Chicago remains easily first, with 6,600,-000 of the 8,500,000 now reported in

GOYERNOR BROWN'S REPLY.

He Says He Has Stirred up "a Nest of Vipers," But He Will Continue to do His Duty.

Governor Brown's long-looked-for reply to ex-Governor Buckner's open letter was given out Thursday. It covers thirty-two pages of type-written matter, chiefly reviewing the contracts with the prison lessees. It seems that the main question at issue between the Governor and the ex-Governor is the proper construction of these contracts, and this alone can be decided by the courts, where it soon will be taken. In closing Governor Brown says:

"My oath of office was to 'take care that the laws be faithfully executed.' When the letter of the law stares the public official in the face, I do not believe in shirking the responsibility of obedience to its command by taking refuge under any technicality, or excusing myself by the plea of necessity or humanity. No man is greater than the flue. law. Nothing excuses a deliberate disregard of its directions. The officials of the State are not autocrats, but public servants. 'A public office is a public trust.' The creature should not assume to be greater than his creator. Assumption of \$1. Look in the show window at Kackanthority or neglect of official duty often ley & Co.'s. brings disaster to the State and stains its escutcheon. The related horrors of convict life were the legitimate offsprings of autocracy in officials and unrestrained greed in contractors.

"It has been my misfortune, in my official pathway, here and there, to disturb a viper, and occasionally to arouse a nest of them. I expected this. I have, with perfect composure, heard their hissings, but am not conscious of having been harmed by their poisonous fangs. In the sounding platitudes of Gov. B.'s letter I believe I eatch familiar echoes, arousing a suspicion in this matter that 'the voice is Jacob's voice, but the hands are the hands of Esau.' I here dismiss the subject, with the prediction that the suit to be instituted for the State will accomplish nothing. I am in a minority of the Board of Sinking Fund Commissioners, and powerless, even if anything could be accomplished under different conditions. The contracts discussed are ropes of sand. The lessees are in the saddle, booted and spurred. Their indebtedness is increasing at the rate of about \$1,500 every month.

"In the future, as in the past, I shall be heedless of ferocious criticism and vicious opposition, and go unpausingly on, in the discharge of the solemn obligations of my official oath, doing always what I believe to be right. I shall obey the law. government building. It will cost \$100,000. and do, as best I can, my duty to my fellow-citizens."

"Muggs' Landing"

"Muggs' Landing," a rollicking story of fun from beginning to end, with just enough plot to it to give a slight glimpse of seriousness, will be the attraction at the opera house to-night. As now presented "Muggs' Landing" is said to be one of the brightest, jolliest and most entertaining plays of its kind on the road. The famous "Muggs' Landing Quartette" in all the latest selections is one of the special features. The company contains many well known and popular artists.

It was finally made to read "from \$100 to \$1,500," instead of from \$100 to \$1,000. The bill as mended was then passed by a unanimous vote, and goes in a few days to the House.
